Board Games for the Bored
By the Library Journal and School Library Journal editors
For many folks, it's been eight weeks or more of sheltering at home, oftentimes balancing remote work and digital school. Families or roommates in need of some screen-free activities will want to check out our roundup of the best board games that encourage cooperation, friendly competition, and belly laughs. Meanwhile, home gardeners—perhaps inspired by our recent roundup of virtual tours of botanical gardens around the country—may want to dig into these delightful horticultural guides.

Though schools may be months away from reopening in most states, some parents may be interested in the latest update from the Centers for Disease Control. For families preparing for an unusual summer break, there are, at least, plenty of excellent reading options for adults, teens, and young readers, including another round of free digital comics for kids.
Attention Seniors wanting to work in the Trades.
